Ease into middle school

If your child will be going to middle school next year, start preparing now to make the transition easier. You can:

- **Visit the middle school** with your child. Ask for a tour. Read the website.
- **Build school spirit.** Learn about the school's clubs, teams, classes, colors and mascot. What will your child learn and do in middle school that's exciting?
- **Encourage important habits.** Your child should stick to a daily homework routine and practice staying organized.
- **Keep communicating.** Discuss your child's hopes and concerns with her.
